## Melanie's Thoughts

Melanie Wait  
Principal

### Welcome back

Welcome back to Term 4 at Tooleybuc Central School. Already we have a range of wonderful activities organised for our students to finish off the school year and we are also very busy planning for 2016.

### No Hat No Play

Just a reminder that Term 4 is a No Hat, No Play term. Ideally we would prefer students not to borrow hats. Please make sure your child has a hat in their bag. They should also have a water bottle which they are able to take into the classroom.

### Swim School

Don't forget our Swim School which will be held during Week 10 this year. If your child has had private lessons since last year or is new to the school can you please forward their swimming level to the school to allow us to organise groupings.

### Centre for Learning

Don't forget our Centre for Learning is open again this term on Thursday afternoons from 3.15 pm to 4.15 pm. Students are supported by teachers to assist with home learning or areas that they are having difficulty with. This a great initiative to assist students with their learning.

### Orientation and Transition

This term we will have our final Orientation and Transition Day's for Foundation and Year 7 in 2016. During this term there will also be a parent meeting. We encourage all parents to attend this meeting to help develop an understanding of the ways to support your child through the next stage in their educational journey.

Lucy in Foundation 'Best Exhibit Award' at Swan Hill Show.

**Merit Scheme**

To reward our students' positive behaviour Tooleybuc Central School runs a strong Merit Scheme. Students are awarded 'Merit Awards' during the school year and an accumulation of these merits equates to levels.

- Bronze Level 10 Merits
- Silver Level Bronze plus and extra 20 Merits
- Gold Level Silver plus an extra 30 Merits.

Primary students are given a 'Lucky Dip' at the achievement of each level. Then they are presented with a certificate at our Whole School Assembly. Secondary students with the highest GEM score in each class receive the Student Of The Fortnight on Assembly. Those students who achieve Gold Level or the correct GEM average are invited to attend our End of Year Merit Excursion.

**Gold/Bronze**

|         |        |          |        |

## Primary News

*David Tallon (Assistant Principal)*

Welcome back to Term 4! Its great to see the students settling back into their learning this week and to hear their stories about the holidays!

Just a reminder, students are expected to be wearing a hat if they are playing outside during recess and lunch. They should also be wearing a hat during sporting activities.

We wish Sara Berg all the best as she heads to Sydney to compete in the State Athletics Carnival next Wednesday.

### Year 5/6 Careers Excursion

Late last term Year 5/6 participated in a Careers excursion. Students visited the TAFE campus where they were shown the facilities and discussed what courses the campus provides.

Students then went to Murray Ace to listen to Beau talk about his job at McDonalds and the job opportunities that McDonalds can offer. He also discussed setting goals and being motivated to achieve them.

After lunch, we visited Swan Hill Shire Council. Students learnt about the different job opportunities that they have and the various things that council provides for the local community. We even had a demonstration of the new dog cage.

Finally we went to the Ambulance depot. Our host discussed what the day of a Paramedic could be, topics to study and described the workings inside of an ambulance. Finally he turned the sirens on at the request of the 5/6 students.

A big thanks to Kim Morton who organized the day.

Mr Tallon

Year 5/6 at the Ambulance Station

**Year 2/3/4****Ashlea Bruton (Class Teacher)**

As a continued unit from Term 3, we have been looking at interpersonal relationships in PDHPE. This week we focused on a particular theme of the unit, 'Families'. This created a great class discussion on what a family is and how each family can be different. We also looked at the roles and responsibilities of each member within our families.

"A family is a group of people that has a good caring relationship that love each other." Aroha Mogler.

"A family is a group of people that are related." Kusi Chapman.

"A family is a group of people who are related." Noah Everitt.

"A family is a loving and caring bunch of people who are related." Kayla Kendrick.

"A family is a group of related people." Paul Scalora.

"My family help each other when they need help." Elektra Kelly.

"A family is a group of people related to you." Keisha Andrews.

"A family is a group of people that live together and care for the members of the family." Emily Hickey.

"A family is a group of people that gave you life." Alesha Mammone.

"A family is a group of people who love you and raise you." Josie Steel.

"A family is elders that are related to you." Finn Lyons.

"A family is a group of people that protect you and care for you." Murdoch McKenzie.

"A family is a group of people who do or do not live together." Hannah Rogers.

"A family is a group of people who raised you and love you." Asiri Chapman.

**Show Winners**

Skye - Year 1

Elijah - Year 2

Alex E - Year 2

Ashby - Year 2

## Secondary News

### Sean Connell (Head Teacher)

Welcome to the final term of 2015, it seems only yesterday I arrived, and now, thanks to the friendly and supportive staff and family-like community I truly feel a part of Tooleybuc Central School. It goes without saying, these next five weeks are going to be hectic as courses wind up to the end-of-year examinations and each Secondary School year group rolls into the proceeding year. Now, more so than ever, students need to be diligent with completion of any assessment tasks and maintain regular communication with their teacher regarding deadlines and any help they may need. The Thursday afternoon Centre for Learning, held in the Library, is an invaluable resource for students to gain extra assistance and access the schools library and internet services for study, home learning or assessment tasks.

## Science

### Sean Connell (Science Teacher)

#### Year 7

Students in Year 7 are finally doing Science as they see it, getting hands on experience using chemicals and equipment in the discovery of mixtures and their separation techniques. Congratulations to Ryan G and Phoebe S for growing the largest copper sulphate crystal in the recent supersaturated mixture experiment.

Ryan and Phoebe with their largest copper sulphate crystal.

#### Year 8

The theme of chemicals continues in Year 8 with students gaining knowledge of atoms and the periodic table of elements. The students are learning how different atoms interact, why they need to borrow and steal electrons from one another and what the effects of this interaction are. Students are looking at the different types of chemical reactions and how to

balance chemical formula which can be a daunting process.

Sean testing a chemical reaction observed by Luke, Brett and Jack.

#### Stage 5

The students of Year 9/10 ended the term on a fun note, watching the movie "The Core". This movie gave the student's an understanding of the different layers of the Earth and role each layer plays in shaping the world around us. The students are learning about tectonic plates and the role of the core in generating the Earth's electromagnetic field protecting us from the radiation from our sun.

## Career News

#### CAREER EVENTS

Last term in Week 10 our Year 5/6 students attended a Careers Day in Swan Hill which involved a tour of TAFE, talk from a young inspiring McDonalds assistant manager, walking tour and talk with the Swan Hill Shire and a visit to the Ambulance station. All students gained a lot of knowledge about the diverse range of professions available in our local area and heard about many interesting careers that people have undertaken. Hopefully students will be able to use the day to guide them with future subject selection and the application of their learning at school to the outside world. More details on this great day will follow with a report from the Year 5/6's.

## WORK PLACEMENT/WORK EXPERIENCE

Last term throughout Weeks 8-10 many of our Year 10-12 students were involved in Work Placement and /or Work Experience. Once again students gained a lot of knowledge and skills about the working world. We are grateful to all employers who readily took on our students and provided them with such valuable experiences. Once again I received very favourable reports from all work places I visited.

**Week 3** this term Year 10 Auto and Metals and Engineering students will be undertaking their first week of Work Placement for the VET course they are undertaking. All students should be getting their forms signed and returned to me ASAP.

**YEAR 12 NEWS** – apply for courses through VTAC ([www.vtac.edu.au](http://www.vtac.edu.au)). Once you have applied, you can change your application as you wish. The fee goes from \$29 to \$95 if you first apply after 30 Sept. The **first round of offers of places** will occur on **18 January, 2016**. You can **adjust your preferences** after each offer round, **irrespective of whether you have received an offer of a place already or not**. There will be five rounds of offers. Change of preference will close a few days before each offer round and reopen the day after each offer round. Keeping up to date with course changes, dates and events - sign up for a VTAC social media channels. Subscribe to the VTAC applicant blog by email or RSS: [blog.vtac.edu.au](http://blog.vtac.edu.au); follow on Twitter: @vtacguide or Like on Facebook: [facebook.com/vtacguide](http://facebook.com/vtacguide)

## MONASH UNIVERSITY NEWS -

**CHANGES AT MONASH** – Monash is offering a **revitalised course portfolio**. Popular **double degrees** are still available, and students can still commence **specialist studies from first year**. Go to [www.study.monash](http://www.study.monash) to find out about **all Monash courses** and a full list of **majors and specialisations**. You can make course **comparisons**, and find the right course for you. For example, journalism is now offered as a major (eight units) or an extended major (12 units) within the Bachelor of Arts. This offers you the flexibility to structure your other Arts and non-Arts electives to suit your interests (eg a student can choose to do a second Arts major or minor, such as a language, or choose to take studies in a different discipline such as marketing or IT).

**LANGUAGES AT MONASH** – Monash offers a very comprehensive language program. Students can enter with no language background through to an advanced background. Languages can be studied in the **Bachelor of Arts**, the **Bachelor of Global Studies**, or students can complete a **Diploma of Languages** along with an undergraduate degree.

**SOFTWARE ENGINEERING** – is now a specialisation in the **Bachelor of Engineering**.

**HEALTH SCIENCES** – The new **B. Health Sciences** is a parent course with **four specialisations** – **emergency health, human services, public health and radiation sciences**. For the first year and a half students will study **three common units at the Caulfield campus**, as well as an additional specialist unit completed at different campuses – emergency health at Peninsula, human services and public health at Caulfield, and radiation sciences at Clayton. **NOTE: Social work** is no longer offered as an undergraduate Monash course; those interested in Social Work are advised to study the **B. Human Services** followed by the **Master of Social Work**.

**NUTRITION AND DIETETICS** – As noted previously, the **B. Nutrition and Dietetics** is not offered for entry in 2016. Students interested in pursuing this career are advised to undertake the **B. Nutrition Science**, followed by the **Master of Dietetics**.

**MONASH GUARANTEE** – This ensures fair entry for students to Monash, promising a course offer or access to a reserved place for students who have experienced financial disadvantage, attend an under-represented school or are Indigenous Australian. **See:** [www.monash.edu/guaranteedentry](http://www.monash.edu/guaranteedentry).

**PATHWAYS TO MONASH** – When applying through VTAC it's wise to have a plan for if you don't get your hoped-for ATAR. Some **pathways to Monash** are: the **Diploma of Tertiary Study (DoTS)**, a one-year course allowing you to begin studying towards a Monash degree; the **Diploma of Higher Education (DoHE)** for students wanting to study science or science education but didn't get the required ATAR. You will need an ATAR of at least 50 for DoTS and 65 for DoHE (also complete an online supplementary form). **See:** [www.study.monash/courses/entry-pathways-domestic](http://www.study.monash/courses/entry-pathways-domestic)

**THE UNIVERSITY OF MELBOURNE** – Many are aware that Melbourne operates on a different model from other Victorian universities. Students who study there start with a degree in either **Agriculture, Arts, Biomedicine, Commerce, Environments, Fine Arts, Music, Oral health or Science**. Once the initial degree is completed students can head into the workforce, do a professional qualification at masters level or complete a graduate research degree.

**WHAT IS THE BACHELOR OF BIOMEDICINE?** It is a three-year degree concerned with the **processes and systems that create, sustain and threaten life**. It offers 13 majors across biomedical disciplines and is a good choice if you want to enter **health professions**. Some of these are **clinical audiology,**

**dental surgery, medicine, nursing science, optometry, physiotherapy, social work and speech pathology.** As with other degrees, it includes studying **mandatory breadth subjects** outside the Faculty. Major studies are determined during second year to commence in third year. Most graduates go on to study medicine, others to research in an Honours year, others into physiotherapy, Engineering (eg Bioengineering Systems), IT (eg Health Infomatics), Dentistry, etc. **NOTE:** Some choose to do a **Bachelor of Science** at Melbourne as a pathway into health degrees.

#### DEAKIN UNIVERSITY NEWS –

**PATHWAYS TO DEAKIN** – Deakin has several pathway options for those who do not obtain the required ATAR for the degree of their choice: TAFE pathways, Deakin College and Associate degrees. **See:** <http://www.deakin.edu.au/study-at-deakin/study-options-and-pathways/pathways-to-deakin>

**SCHOLARSHIPS** – Deakin's new scholarships include the **Vice Chancellor's Academic Excellence** Scholarship, Deakin's **Scholarships for Excellence**, and the Deakin **Student Support Grant**. More information at: <http://www.deakin.edu.au/study-at-deakin/scholarships-and-awards>

**COGNITIVE SCIENCE** – Will be offered as a new major sequence in 2016 in the **Bachelor of Computer Science** at Burwood. Subject areas include: psychology, understanding the mind, thinking systems and cognition science, human behaviour and computer interaction, and data visualisation and decision making. **See:** <http://www.deakin.edu.au/study-at-deakin/find-a-course/computer-science>

**AUSTRALIAN CATHOLIC UNIVERSITY NEWS TEACHING AT ACU** – ACU offers alternative pathways into a number of their degrees. For example, there are several options for becoming a teacher. **See:** [www.acu.edu.au/pathways](http://www.acu.edu.au/pathways)

**BACHELOR OF DIGITAL MEDIA** – A new degree in 2016. It will enable students to work across a range of careers by developing skills in **video and audio production, social media production and journalism/text production** to meet the demands of today's changing media industry.

**BACHELOR OF TEACHING/B. EXERCISE SCIENCE** – New in 2016, this is for students wanting a career combining physical activity and a love of teaching. Depending on the subjects, students will graduate with health, PE and personal development teacher qualifications, and a second teaching method.

**BACHELOR OF BIOMEDICAL SCIENCE DOUBLE DEGREES** – The Biomedical Science degree will be offered with Applied Public Health, Law and Business Administration from 2016.

#### RMIT NEWS –

**PATHWAYS** – Like other universities, RMIT offers pathway programs to help you reach your study and career ideas. You can often transfer from one program to another, with recognition of your existing skills and knowledge. More information see:

<https://www.rmit.edu.au/study-with-us/applying-to-rmit/local-student-applications/pathways/recognised-pathways/>

#### COMPUTER SCIENCE AND IT ANIMATION –

Choosing the right computer science and IT degree depends on how your wires are connected. RMIT has launched a **new animation** that will inform you about the difference between computer science and information technology programs at RMIT. **See:**

<https://www.youtube.com/watch?v=qOIBH4B8Vv4>

#### RMIT MEDICAL RADIATIONS SCHOLARSHIPS –

The Department of Health (Victoria) is offering five scholarships of \$10,000 in nuclear medicine. **See:** <http://www1.rmit.edu.au/scholarships/nuclear>

#### Gauging Educational Merit (GEM)

| Class score | Description                                      | GEM Average | Result  |
|-------------|--|-------------|---|
| 10          | Outstanding effort                               |             |   |
| 9 +         | High level of effort                             | 9-10        | Maintain average for a term to receive canteen voucher and certificate  |
| 8           | Sound effort                                     | 8-9         | Maintain average for a term to attend reward BBQ  |
| 7           | Satisfactory effort                              |             |   |
| 6           | Limited effort (causing some concern)            |             | Monitoring in the subjects where your score is below 7, reporting to class teacher                                    |
| 5           | Poor effort (unsatisfactory)                     | 5-6         | Monitoring in all classes, reporting to Head Teacher daily. Extra curricula privileges may be removed                 |
| 1           | Poor effort & behaviour, non submission of tasks | 1-5         | Monitoring in all classes, reporting to Ms Wait daily. Not allowed to attend excursion and extra curricula activities |

## VOLUNTARY CONTRIBUTIONS 2015

The New South Wales Government provides much of the necessary equipment and materials for the efficient running of the school. However, to keep up to date with the latest textbooks and to supply materials for such subjects as technics, craft and food technology, parents are asked to make a voluntary contribution. These are reviewed each year and kept to an absolute minimum, and are payable at the beginning of each school year. These contributions are important in ensuring that we can optimize learning opportunities for students. Your cooperation in this regard is greatly appreciated.

|  |                      |                        |
|--|----------------------|------------------------|
| Technology Fee   | All Years F to 12    | \$10.00                |
| Current voluntary contributions including Technology Fee | Infants and Primary  | \$52.00                |
|  | Years 7 + 8          | \$98.00                |
|  | Years 9 + 10         | \$57.00                |
|  | Years 11 + 12        | \$57.00                |
| Industrial Technology                                    | Year 9 + 10          | \$52.00 plus materials |
| Design and Technology Food:                              | Year 9 + 10 elective | \$62.00                |
| Primary Industries                                       | Year 11 & 12         | \$75.00                |

# Intereach Ability Links

**Do you have a barrier or disability?  
Do you care for someone with a disability?**

Ability Links is a new approach to supporting people with a barrier or disability aged 9 to 64 years, and also provides support for families and carers.

Ability Links helps people to understand how every person has a valued role in their community and has the capacity to enjoy a connected life that is meaningful and fulfilling for them.

Our local linker Wendy Johnston is based at the Intereach office, but regularly out and about in the communities of the Wakool Shire, and is available to meet at a place of your choice. Wendy can assist people to connect to their community by addressing their barriers, discovering their individual passions and planning towards living the life they want to live.

If you or someone you care for lives with a barrier or disability, phone Wendy for a chat. We will support you to explore possibilities, initiate connections and access resources in your community.

Contact your local linker

Wendy Johnston  
Phone: 03 5890 5200  
[www.intereach.com.au](http://www.intereach.com.au)

## Walktober

### What's so good about walking?

The Australian Department of Health recommends children accumulate at least 60 minutes (and up to several hours) of moderate to vigorous physical activity every day. Not surprisingly, children who walk, cycle or scoot to and from school have higher levels of physical activity and improved cardiovascular fitness compared to children who don't.

Walking time is also talking time for parents and children: when the stress of driving and keeping your eye on the traffic is taken away, it's easier to talk to your children about what's happening at school and in their lives.

Walking's also great for the community and the environment. Choosing to walk instead of drive reduces traffic congestion around schools, and related noise and air pollution.

So why not start walking to school during October!

|  |   |                   |
|--|---|-------------------|
| DATE - <i>SUN 15<sup>th</sup> Nov</i><br><i>2015 @ 2pm</i> | SCENE - <i>Swan Hill</i><br><i>PACC</i> | TAKE - <i>ONE</i> |
|--|---|-------------------|

**2 Encourage planning and goal-setting**  
 Start with the big picture. Before diving into any activity – a maths problem or finding out about something in history, for example – take time to get the overview. With young children, show how this helps by, for example, looking at the lid of a jigsaw puzzle or the instructions that go with a game.

Picture what success will be like before starting a task. How will children know they have achieved it? Take time to talk about this with your child.

**Tips for looking ahead and setting goals**

- Encourage your child to close their eyes and picture the task in their head. You may also want to suggest they think of people they know who can do whatever it is they are planning.
- Ask questions that encourage looking ahead, such as: 'How long do you think this will take you?' and 'How will you know if you have learned these spellings?'
- Make a simple chart with your child that shows when they will do their homework and put it on their bedroom wall.

|      | MON       | TUES      | WED       | THUR      | FRI       |
|------|-----------|-----------|-----------|-----------|-----------|
| 4:00 | HOME-WORK | FOOT-BALL | CUBS      | HOME-WORK | HOME-WORK |
| 6:00 | EAT       | EAT       | EAT       | EAT       | EAT       |
| 7:00 | TV        | HOME-WORK | HOME-WORK | TV        | FOOT-BALL |
| 8:30 | BED       | BED       | BED       | BED       | BED       |

**ACTIVITY: Planning homework**  
 This big-picture approach to a history task can easily be adapted for other homework.

Suppose your child has to read a passage from a book about Australian Aboriginals, then answer questions and draw an annotated cross-section of an eel trap. Before reading for information, they need to get the 'big picture' by following the four steps below.

- 1 Read the task to check they have everything they need:** the textbook opened at the right pages, a workbook or some paper, coloured pens and pencils
- 2 Make sure they understand the task:** Use a dictionary or get them to ask a family member if they don't know what 'annotated' or 'cross-section' means
- 3 Read the questions quickly.** This will help them to focus on what is important when they come to check the text for detail.
- 4 'Scan' the text to get the general meaning:** to scan the text look at titles, subheadings and the first few sentences of each paragraph.

**Goal-setting**  
 When your child has finished planning, help them to set targets and think about what success will feel like. In the activity above, their goals might be: 'I'll take 15 minutes to read the passage, then answer the first five questions, then take a break. I'll try and write at least three sentences for each answer. I'll finish this by 7.00 p.m. and then do another 40 minutes tomorrow.'

# Tooleybuc Sporting Club Ltd.
