Return on the 10th of October for the beginning of Term 4.

Louisa's Thoughts

Congratulations, to all students who sat the NAPLAN tests this year. We have achieved some fantastic results, being above state average for Year Three Reading, Year Three Spelling, Year Three Grammar and Punctuation, Year Three Numeracy, Year Five Spelling, Year Five Numeracy, Year Seven Reading and Year Seven Writing. Thank you also to all our hard-working teachers. Your commitment to making sure every teacher and every student improves every year has made these wonderful results possible.

It was great to be part of the Year 3-6 Writer's Workshop on Tuesday. The students all boarded the plane first thing in the morning and worked on developing their writings skills all day. I worked with them all to practise analysing their own writing, to allow them to write meaningful writing goals for the session. This is an important part of the VCOP writing program that has allowed us to improve our writing results over the past few years. Later in the Bridge you will be able to see pictures of all the fun that was had on the day and read some finished pieces of work.

This week our staff started working with Noel Maddern and Lorel Masters to develop our understanding of teaching Additive Strategies. This will help to strengthen our teaching of mathematics across the school, and is another example of our staff's commitment to continual improvement for the benefit of all our students.

School News

1 - Writer's Workshop

WIFFER'S workshop

SS Tshhh "hello this your pilot speaking please take your sits as where taking of" said my boss then I saw her Lily gormay she sat in the sweet sits my heart was panging so fast because one I wanna her biggest fans but two she is ratting this flight but then I herd we where taking of so I just wherr back to doing my job.

B Lily gormay has tane skin, brown curly hair, green eyes and a bright smile she has to big musceter body guards who are realy twins Lulu is another stuff.

P Lily gormay then asked me

for a drink I was so nervous that I found my self frozen. Luckily the other fly attendant took me to the barroom and asked "Are you ok?" I unfroze and said "yes I'm fine" good now I have to go and give Miss Lily her drink. But then I could feel a little turbulence the pilot talked everyone to sit down and stay calm.

B But that was less of a problem in about 15 minutes it got worse and worse crash! one of the windows smashed ka-boom we went out of control swish we went for a landing bonk as soon as we landed I bump my head "OMG! get me of th

B plan now!" It was Lily Gormay

Soon everyone was of the plan and Lily Gormay told he rater and the review was devastating we got a 2 out of 10 my heart was crushed it was the worst thing ever my favourite subplot hated the flight.

IE Everyone was sad so I said "it could be worse everyone is happy and healthy see so if one passenger hated it" Lily said "yeah your right."

FWU Well in the end everyone is safely on their way home and I try harder to be the

best every fly attend there
has every been in the whole
inter world.

The day everything went wrong 6.9.2022

Sizzle sizzle the noise of bacon cooking in the hot oil flooded the room. The smell of perfection surrounded me. I grabbed the bacon out of the boiling pan. As I sat down and took a bit of my delicious homecooked meat I checked the time. Panicked that I would miss my flight.

I can't believe it's the day! I'm finally going to Papua New Guinea. As a 16 year old, with no parents I have to make sure I can be organised for huge events like the Modelling Agency I'm going to.

"Oh shoot my flight leaves in 20 minutes!" I exclaimed as I ran out the door, luggage in hand. When I arrived ^{at the airport} I hurried inside to find that my flight had been delayed.

"Ugh!" I groaned. "I knew this was gonna happen." 10 minutes passed so quickly. As I glanced at the departure sign, I saw my plane was leaving.

I rushed aboard the plane, and took my seat. As I was huffing and puffing the pilot announced the safety rules and features of the plane. Further into the flight, the flight attendant made an announcement that we were going into bad turbulence.

We got told not to panic and to put our masks on. And if thing couldn't get any worse, we had to prepare for a crash landing.

Winkles Workshop
6/26/2020
Quickly, get the suitcase we need to go now!

As Jonathan and his parents arrived to the airport, they went straight to the terminal and waited to board their flight. When the gate opened, we sprinted on the aircraft, so we could get the best seats. We got on fast enough to sit next to each other. As soon as they were in, they thought they would be in the first class. After we had sat down, there was a horrible stink of mushrooms and rotten eggs. The flight attendant piped up, "Okay, who wants to turn out? Justin's baby brother has passed away. The pants he started laughing, playing with his baby, brown stuff. What? Just kidding! Not really!"

Crash!!! "What was that?" Attention all passengers, the windows have been open to get rid of all the terrible smells. It will 100% hurt your ears and remember to ~~listen~~ put your hands on your ears so they don't go deaf. Thank you for travelling with cheap airlines! HHHHHH H H H H H Everyone on the plane started screaming. The pilot held his breath and soon he passed out.

"He's dead" ... the doctor wept, but the passengers aboard were laughing, they

There was a big problem we had no pilot! I know, my son Jonathan plays his PS4 and his simulators, such as drive a plane simulator. So so if Jonathan's not here, then Jonathan took the role of being the pilot.

Soon Jonathan landed the plane in Paris and nudged the Eiffel Tower so it fell down. Other than that, it was a safe landing.

1 year later, Jonathan became a pilot, but not and no one went to the funeral of cheap airline pilot. They just gave a day late no laugh at him in his role.

4 - RSL EXCURSION

I am going to talk to you about the RSL excursion in Melbourne. Every student from year 6 and 7 got the opportunity to go to Melbourne for the Battle of Australia, but only some people went. On the 7th of September, the students who decide to go, went down to Melbourne on the Swan Hill RSL bus. It was a long drive, but it was truly worth it. When we got to the ceremony, we had to wait for about 20 minutes before it started, but when it started it was amazing.

The ceremony included what happened in the Japanese war, where it happened and what the monuments and statues that we were surrounded by meant. 4 students from different schools, talked about the life of victims in the Bombing of Darwin 1942, the Battle of the Coral Sea 1942, the Battle of Kokoda 1942, and the Battle of Milne Bay 1942. After the service we went to into The Shrine for a tour, the Shrine is a building that was built to honour the men and women who served in World War I, but now it is known as a memorial to all the Australians who fought in any war. When we were shown around the Shrine, lots of people took photos of the old uniforms, the World War 1 boat, the planes, and the projected videos of the soldiers when they fought.

Once we had looked at all the memorabilia, we had a chance to go to the gift shop. For the people who did not want to go to the gift shop, they got to look at some of the items they did not see before. After we had accomplished everything to do at the Shrine, we sat under a beautiful tree and ate lunch. Later, once we had lunch, we hopped back on the bus and continued our way to Calder Park where we had dinner. There was a small variety of fast-food restaurants to choose from like, KFC, Maccas and Subway. When everyone had finished eating, we gathered everyone and got back on the bus to go home! Thank you for your time and most of all than you for listening! I hope you all enjoy the rest of the assembly!

THE POWER OF FUN

This week at school we had Justin from Freestyle Dance Ministry come and teach all our students from Foundation to Year 10 a dance routine of 5 songs in 5 minutes. And gosh was it fun!! Justin brought the party and all our students got so involved! It was great to see everyone focussed, moving, smiling, and having fun!

When we have fun, we are a little less aware of ourselves and are present in the moment. Fun has no agenda – it's playful, and as Justin said to the students this week – fun, like dance, helps us to be 'light, white and happy on our feet'. After we have fun, we feel nourished and refreshed. There are many physical, mental, and social benefits of fun. It is even argued that [fun itself is a health intervention!](#)

Things can get in the way of having fun. Often, it's mindless scrolling on our phones that has caused us to lose our skills in creating and filling our lives with fun.

The highlight of the dance workshops this week was seeing how engaged the students were, fully getting involved with the fun in front of them. My challenge to you – add to your weekend with something 'just for fun'. You won't regret it!

Primary Report - Mrs Hazlett - Foundation

Book Week was celebrated during Week 8. This was a tremendous day, with all foundation students dressing up in character costumes. We also had a visit from the Tooleybuc Preschool students who joined in our book week parade and had a lot of fun dressed as book characters.

This Week Foundation students enjoyed joining in the Hip Hop Dance session with our visiting performer. Students were taught many cool dance moves. For 50 minutes Foundation joined with Year 1 & 2 for a high energy fun dance.

Head Teacher report with Miss Duma

Head Teacher Report

The time is fast approaching for the final official school day for our Year 12 students. I would like to take this opportunity to congratulate them on their achievements and wish them every success for their future endeavours. Our Stage 6 students are also in the final stages of preparation for their upcoming HSC exams which commence on Wednesday 12 October.

Next week we our Year 8-11 students will receive their booklets for the 2023 Academic Year Subject selections. A Parent meeting to go through NESA rules and procedures for Stage 5 and 6 will occur on Monday 19 September at 5pm. This will be zoomed simultaneously for anyone who is not able to be at school at that time.

PDHPE Report

Students in Years 7-10 have been working on their Dance Assessment which has been the main focus of PDHPE lessons during Term 3. Students are required to incorporate all elements of composition into their performance. Their minimum 3 minute dance can be done individually or in a group and must reflect on one of the following themes: Dance Theatre, Decade of Dance, Genre of Dance, or Dance Across Music Styles. We look forward to seeing their performances during Week 10, where students will also partake in a dance appraisal.

National Health & Physical Education Day + R U OK? Day

On Wednesday 7 September we celebrated National Health & Physical Education Day. We also undertook activities for R U OK? Day which was celebrated nationally on Thursday 8 September. Students engaged in theory sessions about looking after their holistic health, including the importance of looking after our physical, social and emotional health and checking in with our mates

when we notice that they may not be travelling ok. Many students also participated in the Obstacle Course Lapathon at lunchtime, with some very eager participants, completing more than the required 2 laps. Students had to jump/leap/step over hurdles, complete an agility course, run around the back oval, weave through the AFL goal posts, use the hula hoop and then do a 200m effort and pick up a braid before completing the next lap.

CHS Central Schools Open Netball Finals

On Monday 29 August, Mrs Frost and our Open Girls Netball team travelled to Dubbo to participate in the CHS Central Schools Statewide Competition Finals. Our team performed exceptionally well, winning all of their games and being crowned Central School Open Netball Champions 2022.

Adelaide 60km Coastrek 2022

On Friday 2 September, Miss Hislop, my sister Anthea and myself complete the Adelaide 60km Coastrek Challenge, raising funds and awareness for Beyond Blue. There were 30 teams who competed in the 60km challenge and 250 teams who competed in the 30km challenge. We started our trek just after 6am at Parsons Beach, winding our way across land, sand and water to finish at Goolwa at 8:52pm. The trek itself presented us many challenges as we hiked parts of the Heysen Trail, some of which included some very steep hills such as the Waitpinga Cliffs, and Rosetta Head at The Bluff Encounter Bay. We had 2 water crossings and almost 10km of sand to walk over, some of which was in the dark with the tide coming in. Each of us struggled at various points on this tough physical and mental challenge, but the support from fellow walkers, event volunteers, general public who we passed and of course the messages of support from our family, friends, colleagues and the wider Tooleybuc Central School community spurred us on to complete the challenge. Our initial goal was to have completed the event in under 16 hours (even though the event time limit was 18 hours). Start to Finish, including rest stops, shoe/sock changes and tending to blisters, we finished in 14:46:14, with total walk time being 12:54:01.

We are extremely happy and proud of our achievement (and sometimes still can't quite fathom how we actually did it), but also very pleased that we have been able to raise much needed funds and awareness for Beyond Blue to continue the amazing work that they do to support the three million people in Australia living with anxiety and depression, and those affected by suicide. Our Team *Rivers United* has raised almost \$6000 to support Beyond Blue's services. The fundraising pages stay open until Sunday 11 September 2022, so if you are in a position to donate, please consider donating to our page to support such a worthy cause.

Mrs Morton- Careers Report

Tooleybuc Central News:

Year 10 students recently completed **work experience** at a variety of places and feedback from employers has been very positive. Work experience gives students a chance to experience what the job entails, work as part of a team, follow instructions, develop confidence, organise oneself and think independently. All of these skills help with future employment. Well done to all students for your efforts this year.

Year 12 students have almost finished their schooling. It is important for those applying to university to check all admission fees (for VTAC, UAC, SATAC etc.) have been paid, all early entry applications completed, SEAS completed for VTAC, accommodation options looked at and scholarships considered. Please don't hesitate to seek help from me for any of these important deadlines. In addition all Year 12 students should be updating their career plans and resumes. For any other possible school leavers it is

important to have an up to date resume and seek some advice. Visit me in my office or email me at any time.
